Databases (MySQL, MongoDB)

Git

RESTful API

PROFILE

A talented software engineer with an interest in both back-end and front-end development. Adept at problem solving and detail oriented, while retaining attention to the wider picture. Capabilities with Mac, Linux and Windows systems. Strong understanding of databases (MySQL and MongoDB), with knowledge of API building (REST & GraphQL). Able to take a high level problem and create a full stack solution to it.

EDUCATION

Full Stack Flex Coding Bootcamp, Monash University

Aug 2023 — Feb 2023

PROJECTS

Habivox

Cityspire
